

SWIMMING POOL PERMIT APPLICATION PACKET

Please read the attached material. **Page #2 of the permit application to be CHECKED, SIGNED and RETURNED with the required documents for permit.** The following documents from this packet must be returned for a swimming pool permit application:

- * Bond or Letter of Credit for damages to City Property
- * Application for Swimming Pool Permit (2 pages)
- * A boundary survey and pool location map completed by an Illinois Licensed Land Surveyor is required for installation of a swimming pool.
- * Erosion control plan
- * Application for Fence Permit (or existing fence noted)

Failure to submit all of the above documents will result in applications being rejected.

If during plan review, additional information is requested or the required information is incomplete, the review time is suspended until the requested information is submitted and logged in at the Department of Public Works.

All property corners/lines and easements must be staked and visible in the field with the pool and fence locations marked at the time an on-site meeting is conducted.

NO WORK NOTICE

With the exception of Erosion Control and marking of property lines, pool and fence locations, easements and utilities

ABSOLUTELY

- **No work may begin until the bond or letter of credit has been posted**
- **No work may begin until a Permit is issued and has been paid.**
- **No removal of vegetation.**
- **No grading work.**
- **No stock piling or bringing in dirt.**
- **No digging or excavation.**

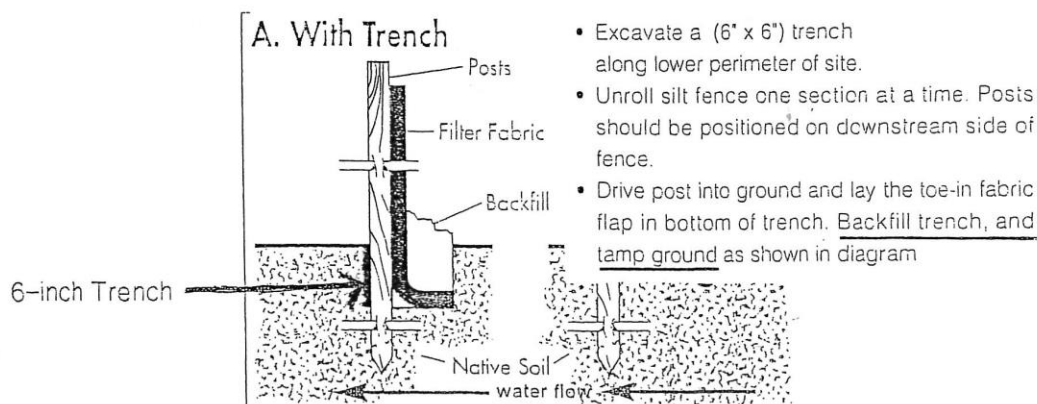

Pre Permit Site Inspection & Required Erosion Control

Following permit application submittal, the applicant must meet on site and at the same time with the Zoning Representative and Electrical Inspector to go over Pre-Permit Erosion Control installation requirements, discuss easements, storm water drainage, site grading, rock driveways, retaining walls, and other pool related issues.

Erosion Control (Typically silt fence along property lines and easement lines) must be in place with an approved inspection before any excavating can take place.

All Erosion Control must be maintained at all times until sod is installed and/or vegetation has grown back (not just seed and straw). Violations will result in immediate Stop Work Order and possible citation.

Proper Silt Fence Installation

Call (618)692-7537 for required inspections. Approved Swimming Pool Permit and Drawings are required on site for Electrical Inspection. Swimming Pool is required to be enclosed by a fence having a minimum height of 4 feet to a maximum height of 6 feet. All gates within the fence are required to swing outward away from the pool, be self-closing and capable of being locked. Any doors that open into the fence enclosed pool area require a code compliant alarm. The issuance of a pool permit by the City of Edwardsville addresses and approves the placement as shown by the applicant in relationship to the setbacks, property lines and easements. This permit does not approve or imply approval of including but not limited to: the pool elevation, site drainage or compliance with subdivision covenants and restrictions.

Approved Swimming Pool Permit & Drawings are required on site for all Electrical Inspections

A boundary survey and pool location map completed by an Illinois licensed land surveyor is required for installation of a swimming pool, and shall reflect all of the following:

A) Location and dimensions of:

- 1) All property lines (Corner Lot shall be identified)
- 2) Buildings (Principal & Accessory)
- 3) Driveways
- 4) All off-street parking spaces
- 5) Location of filter, pump, and pool heater

B) Location of:

- 1) Fence (existing or proposed) including distance to property lines and pool
- 2) Pool (if applicable) and distance to all buildings and fence
- 3) Hot tub (if applicable)
- 4) Water features/falls (if applicable)
- 5) North directional arrow
- 6) Streets (bordering property)
- 7) Easements
- 8) Incoming electrical supply to property
Indicate type of electric supply underground overhead
- 9) Utilities, Public & Private (gas, water, sewer, etc.)
- 10) Septic tanks/tile fields (if applicable)
- 11) Water wells (if applicable)
- 12) Drainage – show the direction of flow of storm water at the sides and the rear lot lines.
NOTE: Filling in established drainage ways, easement, or blocking the flow of storm water along the lot lines is a violation of the City Storm water Ordinance.
- 13) Erosion Control Measures – Show all erosion control measures to be utilized during construction
- 14) Sign & date plan.

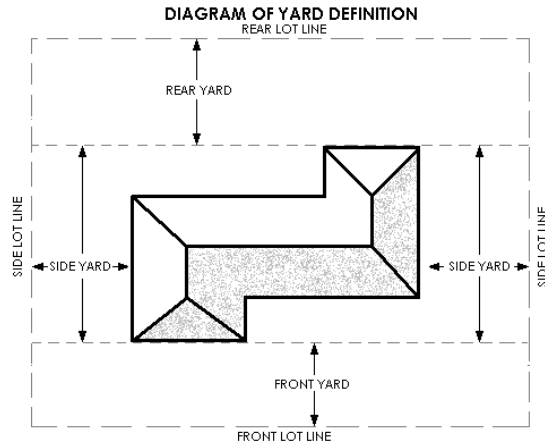

C) Provide a sketch of overhead lines within 30 feet of pool area and underground wiring for non-pool equipment within six (6) feet of the pool. Furnish distances to pool and type of line (i.e. 240V, Telephone, Cable, etc.)

D) Any additional information as may reasonably be required by the Zoning Administrator and applicable sections of the Zoning ordinance.

**Fence Permit Application
City of Edwardsville Page Two**

All property corners must be staked and visible in the field and the location of the proposed new fence marked at the time the site visit is completed. Failure to do so can result in delay of fence permit processing and approval. The City of Edwardsville may also require me to obtain a survey of my property prior to approval of this permit.

SITE PLAN attached shall be drawn in a scale large enough for clarity to reflect all of the following:

- A) Location and dimensions of:
 - 1) All property lines (Corner Lot shall be identified)
 - 2) Buildings (Principal & Accessory)
 - 3) Driveways
 - 4) All off-street parking spaces

- B) Location of:
 - 1) Fence, including distance to property line
 - 2) Pool and/or Hot Tub (if applicable) and distance to fence
 - 3) North Directional Arrow
 - 4) Label streets (bordering property)
 - 5) Easements
 - 6) Power supply to property
 Indicate type of electric supply underground overhead
 - 7) Utilities (gas, water, sewer, etc.)
 - 8) Septic tanks/tile fields (if applicable)
 - 9) Water wells (if applicable)

- C) Any additional information as may reasonably be required by the Zoning Administrator and applicable sections of the zoning ordinance.
